

TABLE MOUNTAIN CREATIVE CONCRETE

Table Mountain Creative Concrete is a family owned and operated business specializing in staining, engraving, overlaying and stamping established concrete.

POOL DECKS

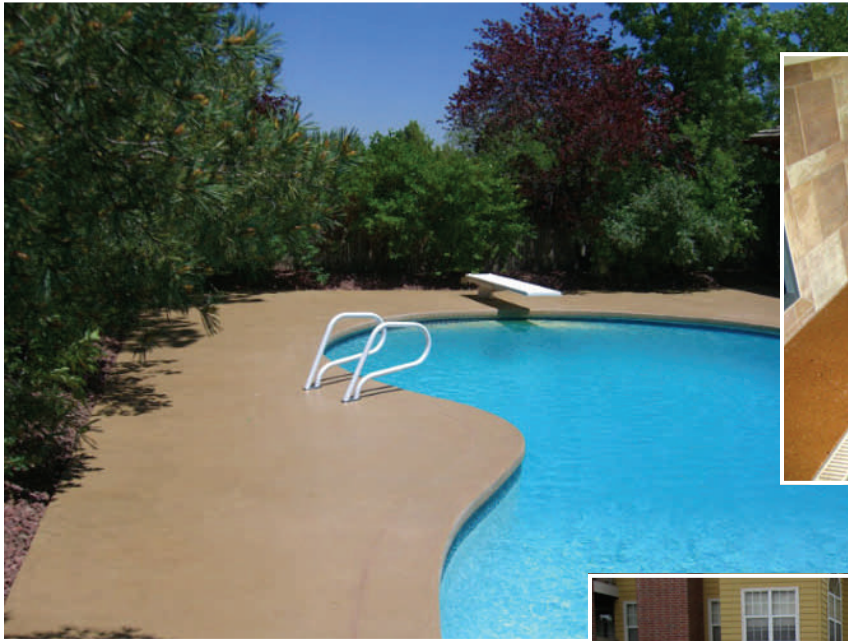

We employ a diverse range of colors and textures to meet your needs for residential and commercial pool deck applications.

We use three-dimensional texturing tools to create stone, slate and granite finishes in an array of colors and designs. Spray, knockdown, and trowel are also excellent textures for your pool deck.

We finish the final surface with a sealer to improve resistance to certain chemicals and to provide a gloss, satin, or matte finish that is tough and durable.

The finished surface has sufficient texture to reduce slipping when the pool deck is wet, and it is resistant to salts, water-borne chlorides and spalling from freeze-thaw conditions.

All our products carry a 5-year manufacturer's limited warranty against excessive fading, delamination and product failure. In addition, we provide a 1-year workmanship warranty on all of our work.

Advantages of Decorative Concrete Overlays for Pool Decks

- Excellent adhesion and weather resistance
- Long wearing under traffic
- Retards water and salt penetration
- Resists ultraviolet degradation from long-term exposure to sunlight
- Environmentally safe—overlay is entirely water-based
- Skid resistant underfoot
- Moderate cost
- Long wearing, durable and abrasion resistant
- Cleanable, easy to maintain
- Excellent weathering characteristics
- Chemical resistance
